

# TASK

# + TASK **SIDEWINDER**®

## TASK SUPPORT VEHICLE

### EXCEPTIONAL STABILITY.

The SIDEWINDER® exhibits quality, durability and Task's ability to remain at the forefront of design. The specially designed 'I' beam mast section provides stability, whilst the re-enforced steel top and rear covers enhance the structural integrity and safety of the unit.

### TAKE CONTROL.

TASK® were one of the first forklift manufacturers to utilize power steering in their pedestrian stackers. Now every TASK® unit is fitted with power steering as standard. The electric power steering allows operators to maneuver the SIDEWINDER® in tight spaces.

The SIDEWINDER® incorporates a functional, dual-hand operating system allowing for full control of the unit.

### INDUSTRIAL POWER.

The SIDEWINDER® is supplied with an industrial battery allowing operators multiple shift use before needing to be recharged. The inbuilt charger allows users to charge the machine via a standard 110V wall plug.

### SAFE. STABLE. EFFICIENT.

Our SIDEWINDER® Task Support Vehicle offers operators an innovative solution to aid with projects at elevated heights in a safe, stable and efficient unit.
