(844) 432-4724 fairchildequipment.com IMPORTANT - Machine design complies with ANSI/ITSDF B56.6-2016 stability requirements for rough terrain forkifits. Rated capacities shown are with machine on firm level ground, steered straight with frame level and on properly inflated tires. Read boom angle and boom extension, then determine allowable load from chart. Do not exceed rated loads as dangerous and unstable machine conditions will result. Always travel with boom retracted in the lowest possible position.
