

SC4000

Productivity meets flexibility

Clean all areas with ease

Agile, flexible, and easy to use

High productivity cleaning for both small and large areas as well as aisles. With a more compact design, the SC4000 is capable of easy maneuverability in narrow spaces and is able to pass through standard-sized doorways. Designed to clean a wide variety of floor surfaces with its highly versatile three deck options and was developed with schools, hospitals, and retail stores in mind.

Mindful cleaning efficiency

Innovative technologies and functionalities that ensure high performance

Productivity Meets Flexibility Choose the perfect deck type, size and performance to meet your specific needs. Available in disc, cylindrical and REV™, from 28-34 inches, with both High Performance and standard packages.

Easier than Ever All command functions are integrated into the steering wheel – quick access allows for seamless, on-the-go adjustments. Operator's hands are always in contact with the wheel.

Quick, Nimble, Smart Clean inconspicuously any time due to best-in-class turning radius (65 inches), a compact profile, and low-decibel quiet operation.

REV™

Delivers a uniform, non-swirled floor surface while using far less water and chemicals. Utilizing both random orbital and rotational motion, REV™ delivers superior daily scrubbing performance as well as chemical-free floor finish removal.

EcoFlex™

Ensure high-quality cleaning every time, regardless of dirt level. At the touch of a button, EcoFlex™ enables optimum cleaning results regardless of soil levels and saves detergent and water.

SmartFlow™

Reduce costs, minimize dump and refill cycles and maximize productivity with SmartFlow™, using up to 50% less water and detergent than similar machines.

Available in both standard and high-performance models, disc, cylindrical and REV™ to optimize versatility and maximize productivity.

Navigate doorways, up and down aisles or in open spaces without missing a beat

Description	Unit	SC4000 28D	SC4000 28C	SC4000 28 REV	SC4000 32C	SC4000 34D
Scrub Deck		Disc	Cylindrical	REV	Cylindrical	Disc
Scrub Path	inch (cm)		28 (71)		32 (81)	34 (86)
Speed (Max)	mph (kph)		4.4 (7)-standard	5.0 (8)-high performance		
Productivity (Max)	ft ² /hr (m ² /hr)		53,590 (4,970)		61,250 (5,670)	65,075 (6,020)
Productivity per Tank (Max)	ft ² (m ²)		89,320 (8,280)		102,080 (9,450)	108,460 (10,030)
Squeegee Width	inch (cm)		32.7 (83)		41.7 (106)	
Vacuum Motor	W		710 (standard)	850 (high performance)		
Drive Motor	W		780 (standard)	1,200 (high performance)		
Solution Tank	gallon (l)			33 (125)		
Gradability	percent (degree)		9% (5°) – Scrubbing	16% (9°) – Transport		
Sound Pressure	dB(A)±3	65.8	66.0	65.5	65.6	67.8
Max Brush Pressure	lbf (kg)	220 (100)	167 (76)	220 (100)	167 (76)	220 (100)
Voltage	V			36		

Optional Accessories

Beacon	Side Broom (32C)	Mop Holder	Headlight	Deluxe Side Skirt (Cyl)
Blue Light	USB Port	Solution Hose	Solution Auto Fill	Scrub-N-Vac Tool
Foot Guard	Vacuum Wand	Arm Rest	Squeegee Guard	High Power Vacuum
Seat Belt	Wash Down Kit	Disk Brushes	Click-On Brushes	Drain Hose Extension
